The Thayer Quarterly
Complete Name Index © 1991-2026

31,600 entries. Current through September 2026, Vol. 34, Issue 3

Please read these notes before attempting to use this index.

All genealogists love indexes, it gives us a quick way to find an individual or family that we are interested in. To be an effective tool the index must be complete and accurate. The index must be sorted and provide enough information to allow the user to find the exact individual he is looking for. However, indexes can contain pitfalls and should never be used as a substitute for original research. It is the responsibility of the reader to ensure they understand the data presented in this, or any index.

As a former Editor of *The Thayer Quarterly* I started to completely index every occurrence of every name appearing in issues of *The Thayer Quarterly*, the official newsletter of Thayer Families Association INC. My effort stopped after the Summer 2000 issue and Editor Rodney Lee Thayer took over and indexed the years 2001-2003. Now that I am retired, I have taken up this effort once more to keep the index up to date.

This index is complete in that it is updated and re-sorted alphabetically after each issue of *The Thayer Quarterly* is printed. Additionally, I have made corrections to the index when pointed out to me and have added birth and death dates, and more complete names that may not have been in the original article appearing in the newsletter. Christening, baptism, and burial dates may appear as birth and death dates when birth and death dates are unknown. The abbreviation "ABT" in a year column indicates "about", AFT; after, BEF; "before" and UNK; "unknown." Note that using a prefix such as ABT affects the way entries are sorted. Richard born ABT 1601 shows up after Richard born 1934. The same name appearing several times in the same article will only be listed once. The same name appearing in two separate articles on the same page will be listed twice in this index. Females listed in this index may appear under maiden name, married name, or both. Preference is always given to the maiden name when known and will appear as such, when known, even though the original article listed a married name. One must not assume that a middle name of Thayer indicates the maiden name. However, famous females may be listed by their name of fame. Occasionally a middle name in parentheses, (name) indicates a maiden name.

When a name is unknown it is listed as such or simply "?", or left blank. In many cases, a female with the surname listed as "unknown" was married to a Thayer. So, when looking for a female in this index it would be wise to look under maiden name, married name, and in the "unknown" surname area. If the surname is listed as unknown and the article subject is "unknown Thayers of [state]" the female was a spouse of a male Thayer.

I have added a column "title" to the index for the following abbreviations: DD (Doctor of Divinity), Dr., Jr., Sr., Rev. (Reverend), Corp. (corporal), Sgt. (sergeant), Lt. (lieutenant), Ens. (ensign), Capt. (captain), Col. (colonel), Gen. (General) Vet. for a veteran of unknown rank, etc. This is an on-going project and is not complete at this time.

Article subjects may be misleading. For example, the articles on Revolutionary War Veterans contains the name of the veteran, his spouse, or if unmarried, the name of his father. Therefore, the reader must not assume that all male names under this subject were veterans of that, or other, wars. Further, the subject in the index may differ from the original article for reasons of brevity or clarity.

Some names will appear in an article, list, or lineage, and may occur without any amplifying text. Linage lists in the *Thayer Quarterly* appear (as an example) as; Zachariah[5], Zachariah[4], Nathaniel[3], Richard[2], Richard[1] Thayer or Zachariah[5-4], Nathaniel[3], Richard[2-1],Thayer. The superscript numbers list the generation from the first immigrant to America in that line. In this example, the original article may be about Zachariah[5] and there may be no information about Nathaniel[3].

The reader must not assume similar names are the same person. Even with such a unique name as Andrew Jackson Thayer, you will note there are two, one born 1818, the other 1829. While it may seem logical to apply missing birth and death dates to identical adjacent names, this must not be done without verification.

Implied names. As time and resources permit I intend to add implied names to the index. If an article states; "Mary Thayer had one brother and one sister" and I know the names of the brother and sister, I will list them. If a quoted newspaper article states; "Mary Thayer and her husband visited her parents" and I know the husband is John Doe, I will list him.

Be aware there are alternate spellings of the name Thayer, such as Tayer and Tawier, etc.

Beginning in 2019 I started adding Find-A-Grave Memorial ID numbers. This is an on-going project and will take some time to complete. A "0" in this column indicates I could not find the record at the time I searched. To use these numbers, go to findagrave.com, select "memorials," then "more search options," and enter the ID number. Special thanks to Marcus "Mark" Thayer who has added 13,601 entries to Find-A-Grave!

The newsletter has been in continuous publication since 1993 with 4 issues a year with the following exceptions; 1993; 2 issues, 1994; 3 issues, 2001; 5 issues, 2011; 3 issues, 2012; 3 issues, 2013; 3 issues, 2014; 2 issues, 2021; 3 issues, 2022; 3 issues, 2025; 2 issues, 2026; 3 issues.

Back issues are posted on-line in the "Members" area of the Thayer Families Association web site: *https://thayerfamilies.org/* Please consider using the "Online Join" link where you can join TFA for $20 a year and have access to this and other valuable resources. Alternately, a PDF electronic copy of a back issue may be purchased for $10 each by writing:

Can't find your ancestor? Write us! The omission of any data in this index does not indicate that Thayer Families Association (TFA) does not have information on an individual. TFA is proud to have Patricia Thayer Muno as our Historian/Genealogist. Patricia has been working on the Thayer surname for over 45 years. She has a data base of over 77,000 Thayers. Patricia has extracted almost all census records and if you have a grandfather Thayer ancestor with a year of birth and state, or a Thayer ancestor born before 1940, she can probably help you with that as a starting place. Patricia has a *Thayer Pedigree Referral Service* and for a small donation she will provide you with a pedigree chart linking your Thayer family member back to their immigrant ancestor (there is a discount for current TFA members). Also, she is collecting data for the

Comprehensive Genealogy of the Thayer Family of America **publishing project. Please send any information on your current Thayer family members so they can be included in this fantastic project! (There is no charge for this). Pre-1930 photographs of your Thayer ancestor are also sought for future publishing needs. If you are submitting information and do not need a reply, please state that no reply is necessary.**
